Description

National Fire Protection Association (NFPA) 1033, Standard for Professional Qualifications for Fire Investigator, 2009 Edition, Chapter 4 Core Competencies for Fire Investigator

Organization

This is a blended electronic learning course. There will be ten weeks of web based learning including chapter review questions. The conclusion of the course will consist of review and written testing. Lastly there will be practical training and evaluations -To Be Determined depending on location and class size.

Course Objectives

At the end of this course the candidate will meet all job performance requirements (JPRs) set forth by NFPA 1033, 2009 Edition and Wyoming Firefighters Certification System for the Fire Investigator. Further course objectives are outlined in the International Fire Service Training Association (IFSTA) Fire Investigator.

Prerequisites - Each participant is state certified through the DFPES (proctored examination) at the Hazardous Materials First Responder Operations Level.
